

### **First Download Free NinjaTrader**

**Step 1** Go to the Ninja Trader site and get your [Free NinjaTrader Download](#)

**Step 2** Once you have completed the NinjaTrader Download steps open up your NinjaTrader

**Step 3** Next Click on the HELP Tab followed by the about option and copy your machine ID

**Step 4** Email the Machine ID to us at [brettm@specialisttrading.com](mailto:brettm@specialisttrading.com)

**Step 5** We will then activate your machine and send you confirmation that you can now use your software add-on for the term you choose.\*

### **How To Upload Your Software Add On**

**Step 1** Save the software add on we sent you to your desktop.

**Step 2** Open NinjaTrader. You should now have a NinjaTrader Icon on your desktop.

**Step 3** Go to the File Tab at the top followed by the Utilities Tab where you will see the option to import Ninja Script.

**Step 4** Follow the prompts.

**Step 5** Click Yes to allow download.

**Step 6** Find the Software file on your desktop and double-click file.

**Step 7** You Should receive a prompt saying you were successful Importing the file.

### **How To Add Your Software Strategy #4 indicator To Your Charts**

**Step 1** Open NinjaTrader.

**Step 2** Click on the FILE Tab.

**Step 3** Click on the NEW Tab and select NEW CHART.

**Step 4** Double Click on any of the symbols or type in your own symbol in the box at the top.

**Step 5** Click OK.

**Step 6** You should now See a chart so click the indicators icon at the top of the chart (Hover over to see title of different icons).

**Step 7** Scroll down until you see the indicator titled Steve Primo Momentum Trader Strategy #4 and double click it. You should now see the indicator in the box on the lower left. Add any other indicators you like. We suggest the 50 day SMA, Vol etc.

**Step 8** Before you exit the indicator screen click once to highlight the Steve Primo Momentum Trader Strategy #4 indicator. On the right side of the indicator window you will see some different options so you can configure your charts and indicators the way you like. If you would like to have your Steve Primo Momentum Trader Strategy #4 indicator calculate intraday instead of waiting for the next bar to open you should change the DATA option from TRUE to FALSE. This will now allow you to view signal arrows intraday. Remember you must hit F5 to refresh your screen after the trading period is over to confirm that all rules are met at the end of the bar to be a valid setup bar.

**Step 9** Click APPLY and then OK

**Step 10** Click on the Properties icon on the upper right hand side of the chart. Click the Set Default button to lock in your options as the default setting on your chart. This way you don't have to do these same steps each time you login to NinjaTrader
